[Portfolio](#)

SUMMARY:

Self-taught **MERN Stack Developer** with strong problem-solving skills and a passion for building functional, user-focused web applications. Skilled in developing full-stack projects from concept to deployment using **React**, **Node.js**, **Express**, and **MongoDB**. Excited to contribute to a collaborative team, learn fast, and grow as a developer while delivering real value.

PROFESSIONAL SKILLS:

Frontend Development:

Building responsive interfaces using React.js, familiar with component-based architecture and state management.

Backend Development:

Developing RESTful APIs with Node.js & Express.js; handling auth (JWT, bcrypt) and uploads with Multer & Cloudinary.

Design & Strategy:

Background in design and branding strategy, with an understanding of how visual identity and user experience connect to product goals.

Learning & Growth:

Currently exploring **GSAP** (for animations) & **Three.js** (for 3D element) to enhance interactivity. Always eager to learn and improve.

Projects & Experience:

3D Room Planner Website (*Personal Project*)

Built an interactive 3D room planner using the MERN stack and Three.js.

Managed state with Context API and Reducer, implemented authentication with JWT, and integrated 3D features using Three.js.

Self-Discovery Social Media App (*Final Year Project*)

Managed a small team to build a social platform focused on self-expression and psychological retrospection. Contributed to idea development, design direction, and full-stack implementation (auth, uploads, and backend logic).

Portfolio Website (*Personal Project*)

Designed and developed a personal portfolio to showcase technical range. Built with React.js, Tailwind CSS, and GSAP & Three.js

EDUCATION:

Bachelor of Science in Information Technology (BS-IT)

Superior College (Affiliated with GCUF), Mian Channu, Punjab

Session: 2021 – 2025
